Phase II Activation of the Heat Contingency Plan

Phase II actions of the California Heat Contingency Plan have been activated as of 07/23/18. These actions are taken as a result of the issuance of a Special Weather Statement by the National Weather Service predicting an Excessive Heat Warning for an Operational Area or power outages during warmer-than-normal weather conditions. The California State Warning Center (CSWC) continues to closely monitor the heat event with the National Weather Service (NWS), and the California Independent System Operator (CAL ISO). An initial conference call was held, 07/23/18. Another call will be conducted on 07/24/18 at 1100 hours, to discuss the current weather forecast and the current Heat Contingency Plan. CAL ISO will also provide a briefing.

- An Excessive Heat Warning remains in effect for much of Southern California through Thursday evening with record high temperatures with very poor overnight recovery.
- Heat impacts (illnesses, dehydration) will be felt by the entire population outside, and sensitive groups are at an extreme risk for health heat impacts.
- In addition to the Excessive Heat Warnings, Heat Advisories are in effect for surrounding areas through the Central Valley. Sensitive groups should be closely monitored for heat related illnesses.
- There is a high risk for explosive fire spread, especially across Santa Barbara county with sundowner winds, starting Tuesday. A Red Flag Warning is in effect.
- The Inland and Southern Region Emergency Operations Centers (REOCs) will activate at Level 3 on 07/24/18 at 0800 hours.

Cal OES INLAND REGION

Railroad Hazardous Material Incident - Feather River Canyon, Plumas County (Spill Report # 18-4940)

On 07/24/18 at 0340 hours, the California State Warning Center (CSWC) was advised by Plumas County of an unknown railroad hazardous material incident developing in the Feather River Canyon area of Plumas County. Upon follow-up by the CSWC with Union Pacific Railroad (UPRR), UPRR reported that a refrigerated train car carrying frozen food, at position 113 near the front of the train, was struck by a landslide, and there was potential impact to the Feather River.

- The crew of the affected train was unable to investigate at the time of the report, as the location of the train was dangerous.
- There were no injuries reported.
- The CSWC conducted notifications per SOP.

Per the Cal OES Fire Duty Officer (FDO) as of 07/24/18 at 0423 hours:

- The incident occurred in the area of the Cresta Dam (near the Butte/Plumas County line).
- PG&E has personnel en route to allow access from above the Dam
- It is unknown if or how much diesel may be leaking.
- A Sheriff Deputy is on scene attempting to locate and gain access to the rail car involved.
- FDO is monitoring and will provide more information as it becomes available.

FIRE ACTIVITY

INLAND REGION (Continued)

Ferguson, Vegetation Fire, Mariposa County (Continued)

Road Closure

- SR 140 is closed between Midpines and Yosemite National Park Boundary
- Signs in the park indicate Hwy 140 at Hwy 120 will be closing
- WB Hwy 140 at the Mariposa County Line

Critical Infrastructure

Per CUEA as of 07/23/18 at 0752 hours:

- PG&E reported 54 customers are out of service in the El Portal area due to the fire.
- Mariposa Pines area (on the Southwest side of the fire) has been de-energized
- Power outage in the communities of Jerseydale and Mariposa Pine (168 customers).

Health and Medical

- Mariposa County Human Services has set up a dedicated line for residents with Access and Functional Needs (AFN) who may need assistance in evacuating. Toll free number is 1-833-423-0816.
- County Human Services has distributed information on how residents can construct do-it-yourself air scrubbers consisting of a box fan and an air conditioner filter. For some populations, Human Services are providing the kit and constructing/installing them.
- County Mass Care and Shelter Team stood up a rostered Evacuation Team available for deployment in the event that an evacuation occurs in an area where AFN individuals are affected. They maintain a database and have contacted those individuals.
- Due to hazardous air qualities in and around Yosemite National Park, County Environmental Health is supporting the closure of the park to visitors, not to employees. County Environmental Health and County Human Services, in conjunction with ARC, are planning to open a clean-air shelter for park employees and for visitors transitioning out of the park (planned for day use only). These actions are tentatively planned for Tuesday, 07/24/18. This is not considered an evacuation due to fire activity.
- Due to the extended outlook for hazardous air quality, Cal OES ESC coordinated with Madera and Merced Counties to stock up Mariposa with N95 masks (630 adult and 200 pediatric masks).

Missions

- 2018-IREOC-48201: See Cal OES Mission Tasking Slide

Law Enforcement

- 10 Law Enforcement Mutual Aid (LEMA) officers for the current operational period and 10 officers for overnight operations.
- 3 CHP officers assigned to fire related duties

FIRE ACTIVITY

Ferguson, Vegetation Fire, Mariposa County (Continued)

Recovery

- Regional Summary and Initial Damage Estimates inputted into Cal EOC.
- The County Administrator's Office has taken the lead for recovery and is in the process of updating their recovery website. Currently, this mainly focuses on processes for cleaning out spoiled food from extended power outages.
- Repopulation planning has begun. However, the Incident Management Team (IMT) estimates only some repopulation may be able to occur after a few more operational periods; possibly by the end of the week. The American Red Cross (ARC), County Human Services, Food Bank, and County Public Works have teamed up to provide dumpsters for spoiled food, some initial provisions (food and water), and cleaning supplies to returning residents.

WEATHER OF CONCERN

Weather of Concern

Northern California:

- Hot weather has returned this week; high temperatures are forecast to peak Wednesday/Thursday.
- Heat Advisories are in effect for much of Northern California through the Sacramento and Central Valleys.
 - Sensitive groups should be closely monitored for heat related illnesses.
- The potential for isolated afternoon/evening thunderstorm activity remains for the mountains through this evening, 07/24/18.

Southern California:

- Excessive Heat Warnings and Heat Advisories are in effect through Thursday evening; Wednesday is forecast to be the hottest day of the week.
 - Heat impacts (illnesses, dehydration) will be felt by the entire population outside, and sensitive groups are at an extreme risk for health heat impacts.
- Critical Fire Weather Conditions exist over the Santa Barbara County Mountains and south coast due to gusty north sundowner winds and hot, dry conditions. A Red Flag Warning is in effect through Thursday; however, may need to be extended through Friday and expanded to areas around the I-5 Corridor for Wednesday and Thursday. Winds are forecast to be the strongest around and west of the San Marcos Pass, during late afternoon and overnight hours.

WEATHER SYNOPSIS BY REGION

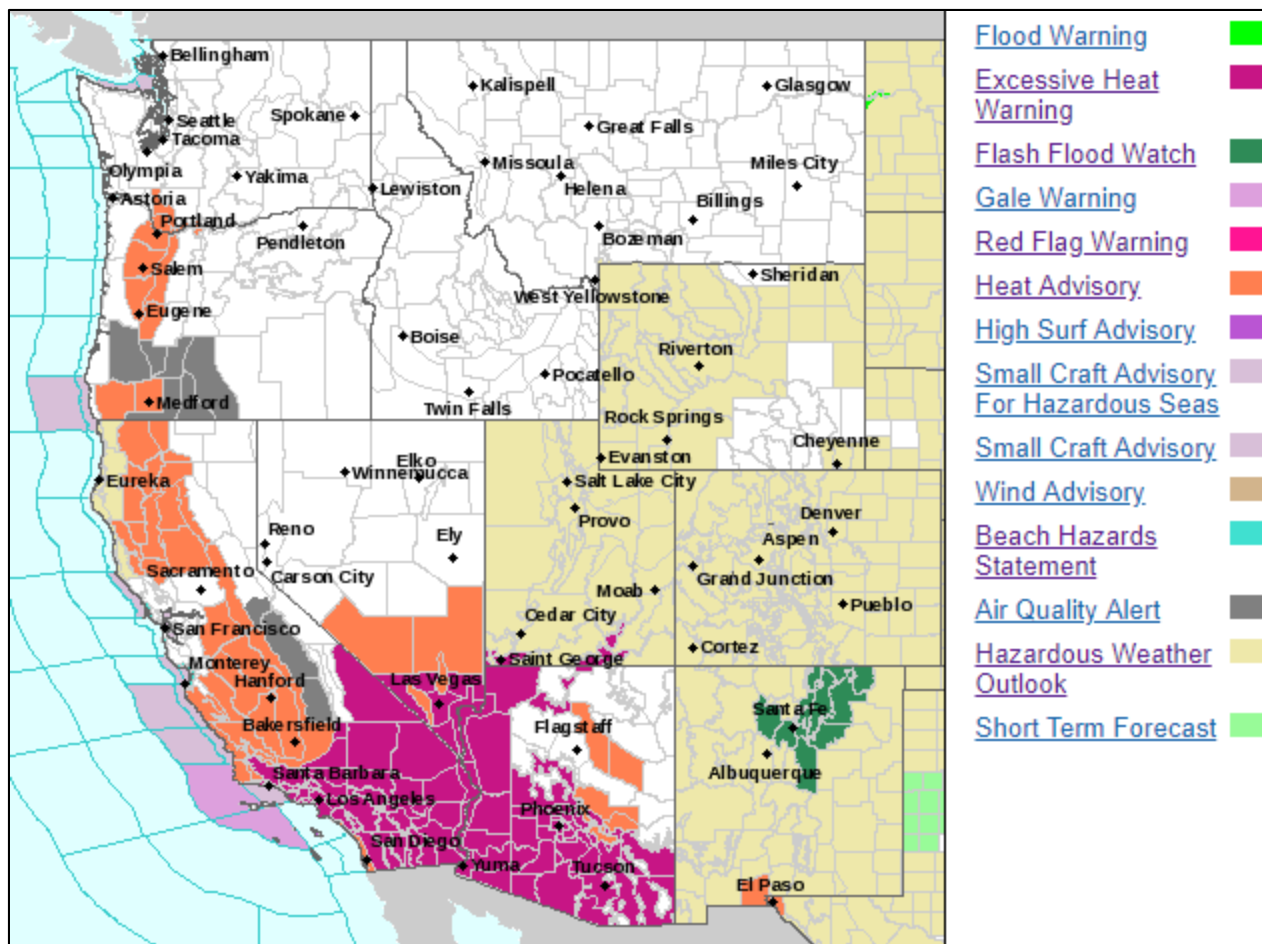

NORTHERN CALIFORNIA

- Hotter weather is forecast today through Thursday, with a slight chance of afternoon and evening thunderstorms over the northern Sierra, the Sierra Crest, Trinity, Siskiyou and Modoc Counties. Heat Advisories are in effect for much of Northern California through the Sacramento and Central Valleys until Thursday. Cooler temperatures are expected beginning Friday through early next week; however, temperatures are forecast to still be a few to several degrees above normal.

SOUTHERN CALIFORNIA

- A high pressure system over the Southwest U.S. will build in through Thursday for fair skies, daily temperatures around record highs, and nightly temperatures above normal. Gusty winds may occur at times for the Santa Barbara mountains and south coast. An onshore flow is expected to return Friday to start a cooling trend and a return of low clouds and fog to most coastal areas. For Friday into early next week, high pressure will weaken slightly with a small intrusion of monsoonal moisture bringing some mid and high clouds at times and some afternoon clouds near the mountains.
